

COMPANY PRODUCTION PROGRAM

EXIMET TRAF0 s.r.o. - the Manufacturer of the Transformers, Reactors and wound parts offer to costumers the complete of range LV and HV production & special products according to customer requirement.

Main production and delivery units of EXIMET TRAF0 s.r.o. can be devided into several groups:

1) Productions up to 1 kV

- Single-phase Transformer 7 ÷ 5300 VA
- Single-phase Output Transformers J 56, J64 3,7 ÷ 13,3 kVA
- Single-phase Output Transformers 10,5 ÷ 300 kVA
- Three-phase Transformers 250 ÷ 5000 VA
- Three-phase Output Transformers F56, F64 5,6 ÷ 450 kVA
- Three-phase Output Transformers 5,6 ÷ 450 kVA
- Single-phase Separating Protective Transformers, unresistant to a short circuit, for powering in rooms for medical purposes 0,5 – 20 kVA.
- Three-phase Separating Protective Transformers , unresistant to a short circuit, for powering in rooms for medical purposes 3,15 – 31,5 kVA.
- Three-phase Compensating Chokes
- Three-phase Commutating Chokes
- Three-phase Decompensating Chokes

2) Productions up to 35 kV

- Oil Distribution Hermetically Sealed Transformers or Transformers with conservator
- Oil Power Transformers up to 10 MVA
- Dry Distribution Cast Resin or Impregnated Transformers
- Dry Power Transformers up to 5 MVA
- Dry Reactors and Chokes up to power 10 MVA_r, rated tension up to 22 kV

3) Special products

Transformers

- rectifiers, furnace, laboratory, for ground protection, and others

Chokes

- filtering, starting, compensating, smoothing, limiting, and others

Manufacturing of replacement coiling - according to the model or supplied documentation.

- ### 4) Repairs
- Dry Transformers and Reactors with impregnated winding
 - Oil Transformers

The quality of products corresponds to european norms IEC, EN, DIN, BS etc., and certificate IECEE-CB, GOST.

EXIMET TRAF0 spol. s r.o. has a quality system certified according to the standard ČSN EN ISO 9001:2001, of BVQI company by which it guarantees the highest production quality. The firm was awarded certificates by world-wide companies.
